\$140M in financing over four rounds of funding. 900+ companies including companies like Johnson & Johnson, Pepsi, Dell, Disney +, and Coinbase have hired Turing developers.

About the role:

We, at Turing, are looking for exceptionally skilled Django developers to develop robust and highly responsive web applications that align with client requirements. Apply for the best remote Django jobs and work with top Silicon Valley companies.

Responsibilities

- Assist in writing effective, scalable, and clean code using Python programming language
- Improve responsiveness and overall performance of the applications with advanced back-end components
- Help in integrating user-facing, front-end elements with the back-end of the applications
- Assist QA/data engineering team to implement security and data protection solutions
- Collaborate with internal teams to understand end-user demands to offer required technical solutions
- Ensure user functionality as well as web page performance across different browsers

Requirements

- Bachelor's/Master's degree in Computer Science, Engineering (or equivalent experience)
